- 

## Professional Experience

**Project Manager | Inscyth Technologies | Houston, TX**

**January 2023 – Present**

- Lead cross-functional development team of 6 developers in delivering Easy Estimator software used by major big-box retailers for countertop sales estimation
- Manage ongoing advancement of Easy Estimator 2.0 through continuous feature enhancements and performance optimizations over 2-year development lifecycle
- Spearhead Easy Estimator 3.0 development project (18 months in progress), coordinating major system improvements including enhanced CSS interface, improved navigation, and 40% performance gains

- Oversee technical architecture expansion to support flexible data integration, enabling compatibility with existing databases and spreadsheet systems to broaden market reach
- Direct complete code base modernization for drawing functionality, ensuring scalable foundation for future product development

## **Front-End Web Developer | Academic Partnerships | Dallas, TX**

**September 2021 – January 2023**

- Developed and maintained collegiate websites as part of cross-functional development team, creating responsive web solutions for new client onboarding and legacy system migrations
- Led migration of legacy ASPX websites to modern WordPress platform using Elementor page builder, improving site performance and user experience across multiple educational institutions
- Implemented SASS-based styling architecture across all websites, ensuring consistent design standards and maintainable code base for scalable development
- Delivered high-quality web solutions under tight deadlines while maintaining rigorous quality assurance standards with zero-error deployment rate
- Collaborated with designers and back-end developers to ensure seamless integration between front-end interfaces and content management systems

## **IT & Technical Project Manager | Baptist Community Services | Amarillo, TX**

**December 2016 – September 2021**

- Managed comprehensive technology onboarding program for new residents, coordinating device setup, account provisioning, and IT service delivery to ensure seamless integration into community systems
  - Led enterprise network infrastructure projects including Meraki and Cisco equipment configuration, cable installation (network, audio, coaxial), and system optimization across multiple facilities
  - Oversaw audio/video system installations in great rooms, entertainment areas, and conference facilities, managing vendor relationships and ensuring on-time project completion
  - Spearheaded digital signage network implementation connecting community-wide communications, coordinating hardware deployment, content management, and user training initiatives
  - Directed corporate website development and maintenance projects while providing comprehensive IT support for employee PC and network infrastructure needs
  - Managed multiple concurrent IT projects including branding and design initiatives for corporate events, consistently meeting deadlines and stakeholder requirements
-
